

Eric Gilbertson

EDUCATION

PhD in Mechanical Engineering – MIT
2015

MS in Mechanical Engineering – MIT
2010

BS in Mechanical Engineering – MIT
2008

YEARS OF MOUNTAINEERING EXPEDITIONS

Total – 14 years

PROFESSIONAL TRAINING

CPR/AED/First Aid

Advanced Wilderness First Aid

AIARE 1

Technical Climbing Self Rescue

Personal Statement

I am a mountaineer working on climbing the highest mountain in every country on earth. I have so far climbed the highest mountain in 147 out of 196 countries. Sometimes the highpoint of a country is unknown or even unclimbed, and I bring professional surveying equipment to figure it out.

This project has required a range of skill sets. I've climbed many high-altitude technical peaks like K2 without oxygen and without Sherpa support, and Peak Pobeda (7439m) in Kyrgyzstan alpine style via the Abalakov route. I've attempted to climb Mt Everest solo without oxygen but had to turn around at 8500m after spending 40 hours in the death zone waiting out high winds. I've also climbed all the Snow Leopard peaks, the third American to do so.

I've done expeditions in Yukon climbing Mt Logan, in northern Ellesmere Island making many first ascents in the British Empire Range, and in the Ragged Range in the Northwest Territories putting up new big wall routes up to 30 pitches on unclimbed peaks.

I've discovered and surveyed new country highpoints in seven countries (Uzbekistan, Saudi Arabia, Gambia, Togo, Guinea Bissau, Colombia, and Botswana). The Uzbekistan highpoint, Alpomish (4668m), was previously unclimbed and unsurveyed, and I made the first ascent.

I learned mountaineering skills while studying mechanical engineering at MIT and climbed all 50 US state highpoints while in graduate school there. After completing my PhD in 2015 I moved to Seattle, where I am currently a Professor in Mechanical Engineering at Seattle University.

When not on international expeditions, I've done many first winter ascents of peaks in the Cascades, and put up several new technical rock routes. I've so far made 46 first winter ascents, such as Hard Mox, one of the most difficult peaks in Washington. I've also made notable second winter ascents, such as Forbidden Peak in January 2021.

Selected First Ascents (93 total)

Alpomish, Highest Peak in Uzbekistan, First Ascent (4668m, IV, 7 pitch 5.8), Gissar Range, Uzbekistan/Tajikistan (8-23-2023)

Hard Mox, First Winter Ascent, Cascade Mountains, Washington ([12-27-2023](#))

Dumbell Mountain, First Winter Ascent, Cascade Mountains, Washington ([2-11-2023](#))

Tower Mountain, First Winter Ascent, Cascade Mountains, Washington ([2-4-2023](#))

Lick of Flame via West Face (5.8, 3-pitch), Cascade Mountains, Washington ([10-01-2022](#))

Sherpa Peak, First Winter Ascent, Cascade Mountains, Washington ([2-5-2022](#))

Holliday Mountain, First Ski Descent, Cascade Mountains, Washington ([5-8-2021](#))

Mt Nirvana via West Face to North face (5.9, 30 pitches), Ragged Range, Northwest Territories ([8-11-2017](#))

Peak 2350, Ragged Range, Northwest Territories ([7-30-2017](#))

Peak 2258, British Empire Range, Nunavut ([6-17-2017](#))

Mt Nirvana First Unsupported Ascent, Ragged Range, Northwest Territories ([6-21-2016](#))

Hoodoo Peak First Winter Ascent, Cascade Mountains, Washington ([2-20-2016](#))

Paija via west face, 5.8, 8-pitch, Ragged Range, Northwest Territories ([7-1-2015](#))

Awards

Explorers Club Member (2025)

Snow Leopard award for climbing all 7000m peaks of the former Soviet Union, 2022 (third American to get award)

Nomad Mania Nominee for Most Intrepid Traveler of the Year Award 2023

Baggers Without Borders Hall of Fame Award, 2022

Fastest Known Time of the Year (FKTOY) 3rd place, 2020, for Rocky Mountain Slam

American Alpine Club Research Grant for surveying the last icecap peaks of the contiguous US (2024, 2025)

Athletic Highlights

2025

- 1) First winter ascents of six Washington Bulgers (Lago, Austeria, Easy Mox, Cardinal, Lake, Kimtah)
- 2) Discovered new 14er in Colorado, East Crestone
- 3) Discovered new state highpoint of Michigan, Mt Curwood
- 4) Discovered/surveyed new country highpoint of Botswana – Monalanong Hill
- 5) Two American Alpine Journal articles
- 6) Three scientific journal articles published on surveys, making nearly all ~60 mountain surveys to date scientifically recognized
- 7) Climbed country highpoints in Suriname, Turkey, Angola, Namibia
- 8) Climbed new route on Alpomish, Uzbekistan highpoint

2024

- 1) First SE-NW traverse of Greenland, kite skiing traverse (1500 miles) including 4 first ascents on west coast
- 2) Surveyed Mt Rainier to discover Columbia Crest summit has melted 21.8ft as a result of climate change
- 3) Discovered/surveyed new country highpoint of Colombia – Pico Bolivar. Measured the former highpoint, Pico Colon, has melted over 60m since last survey in 1939.
- 4) Five articles published in the American Alpine Journal in 2025

2023

- 1) First person to climb the Highpoints of the 'Stans, with partner Andreas (country highpoints of Pakistan, Afghanistan, Kyrgyzstan, Tajikistan, Kazakhstan, Turkmenistan, Uzbekistan), finishing on Turkmenistan
- 2) Climbed 140th country highpoint on Ayrybaba, Turkmenistan
- 3) First Ascent of Alpomish (4668m, IV, 7 pitch 5.8), I surveyed to discover new highpoint of Uzbekistan
- 4) Snow Leopards Completion (3rd American to climb all 7000m peaks of former Soviet Union)
- 5) Pik Kommunisma (7495m), Tajikistan highpoint
- 6) Pik Korzhenevskaya (7105m)
- 7) Kangchenjunga (8586m)
- 8) Mt Everest Solo No O2 attempt to 8500m
- 9) Completed surveying the 100 highest peaks in Washington with professional survey equipment (theodolites, survey-grade differential GPS units). Discovered five peaks that were previously unsurveyed that were added to list, and five removed.
- 10) First winter ascent of Hard Mox, most difficult of the Bulger peaks (hundred highest peaks in WA)

2022

- 1) K2 (8611m) No O2, unguided independent climb

- 2) Broad Peak (8050m), No O2, unguided independent climb

2021

- 1) Pik Lenin (7134m)
- 2) Khan Tengri (7010m)
- 3) Pik Pobeda (7439m) via Abalakov (Russian grade 6A), alpine style
- 4) Forbidden Peak second winter ascent (Cascades, Washington)
- 5) Discovered and surveyed new country highpoints of Gambia, Togo, Guinea-Bissau

2020

- 1) Rocky Mountain Grand Slam FKT
- 2) Wyoming 13ers FKT
- 3) Montana 12ers
- 4) Colorado Centennials FKT

2019

- 1) Noshag (7492m), Afghanistan highpoint, via west ridge (5.7 M4)
- 2) Completion of climbing highpoints of all Canadian provinces and territories, 5th person to complete

2018

- 1) FKT for Washington Bulgers (100 highest peaks)
- 2) Mt Fairweather smash-and-grab ascent (24 hrs Haines to Haines)
- 3) Determined and surveyed new country highpoint of Saudi Arabia (Jabal Ferwa)

2017

- 1) First ascent of West Face of Mt Nirvana (30 pitch 5.9 route, 5-week expedition in Ragged Range, Northwest Territories, Canada)
- 3) Barbeau Peak, Nunavut highpoint (3 week expedition to Ellesmere Island with 14 first ascents in British Empire Range)

2016

- 1) Mt Nirvana First unsupported ascent, Northwest Territories (4 week expedition involving packrafting, 22-pitch rock climb, and lots of bushwhacking)
- 2) Attempt on Shkhara (Georgia highpoint) via NE ridge. Retreated after climbing 18 pitches of ice to 5000m.

2015

- 1) Attempt on Mt Nirvana Unclimbed West Face (7-week expedition, reaching highpoint 16 pitches up, 5.9 A0). Made 12 first ascents of surrounding peaks and paddled 2 weeks out Nahanni River
- 2) Mt Logan, Yukon (2.5 week expedition)
- 2) First person to climb highpoints of all North American countries, finishing on Pico Turquino, Cuba with brother Matthew

2014

- 1) 2000-mile bicycle tour through eastern Europe to finish climbing the Europe Country Highpoints
- 2) Completed 10th year as volunteer mountain guide for MIT Outing Club (leading technical ice, backcountry skiing, winter backpacking, and other trips).

2012

- 1) Completed climbing the highpoints of all 50 US states while in grad school at MIT
- 2) Ran 7th Boston Marathon
- 3) Accomplished world record for most objects juggled while unicycling (7 rings)
- 4) Qualified juggling 9 balls, flashing 10 balls

2010

- 1) 3,000-mile bicycle tour through northern Europe climbing country highpoints

2008

- 1) 3,000-mile bicycle tour from Prudhoe Bay, AK to Montana

2006

- 1) Hiked the Appalachian Trail (2100 miles) from Georgia to Maine
